Released: July 2010

## Distinctive Distance Education Design: Models for Differentiated Instruction

Richard G. Fuller (Robert Morris University, USA),  
Gary William Kuhne (Penn State University, USA)  
and Barbara A. Frey (D. Ed. University of Pittsburgh, USA)

As the educative process continues to transform, educators and instructional designers are challenged to understand the nature of online learning and the central issues involved in effective online design.

**Distinctive Distance Education Design: Models for Differentiated Instruction** attempts to gather the traditional models of teaching and learning and present them in a way that is useful to both new and experienced online teachers in a manner that can assist in increasing the overall effectiveness of online courses and training sessions and provide a greater impact for both the teacher and the learner.

### Topics Covered:

- Forms of online interaction
- Social presence
- Designing education outside of the traditional classroom
- Differentiating instruction
- Characteristics adult learners
- Administrative issues impacting instructional design
- Developing learner support services
- Translating needs into educational language and content
- Cooperative learning techniques
- Asynchronous discussion boards

**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.
