Hamid Nemati (The University of North Carolina at Greensboro, USA)

Privacy and security concerns are at the forefront of research and critical study in the prevalence of information technology.

Pervasive Information Security and Privacy Developments: Trends and Advancements compiles research on topics such as technical, regulatory, organizational, managerial, cultural, ethical, and human aspects of information security and privacy. This reference offers methodologies, research frameworks, theory development and validation, case studies, simulations, technological architectures, infrastructure issues in design, and implementation of secure and privacy preserving initiatives.

Topics Covered:

- Privacy legislation and patient care
- Privacy protection models
- Social engineering
- Electronic medical records
- Data anonymity

- · Anti-forensic tools
- Malicious codes
- Organizational information sharing
- Secure computer networks
- · Web-based social networks

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Hamid Nemati is an associate professor of information systems in the Department of Information Systems and Operations Management at the University of North Carolina at Greensboro. He holds a doctorate from the University of Georgia and a Master of Business Administration from the University of Massachusetts. Before coming to UNCG, he was on the faculty of J. Mack Robinson College of Business Administration at Georgia State University. He has extensive professional experience in various consulting, business intelligence, and analyst positions and has consulted for a number of major organizations. His research specialization is in the areas of decision support systems, data warehousing, data mining, knowledge management, and information privacy and security. He has presented numerous research and scholarly papers nationally and internation-ally. His articles have appeared in a number of premier professional and scholarly journals.
