Enterprise Information Systems Design, Implementation and Management: Organizational Applications

Maria Manuela Cruz-Cunha (Polytechnic Institute of Cavado and Ave, Portugal) and Joao Varajao (University of Tras-os-Montes e Alto Duoro, Portugal)

The continual development and refinement of enterprise information systems is essential for organizational advancement.

Enterprise Information Systems Design, Implementation and Management: Organizational Applications investigates the creation and implementation of enterprise information systems. Covering a wide array of topics such as flow-shop scheduling, information systems outsourcing, ERP systems utilization, Dietz transaction methodology, and advanced planning systems, it is an essential reference source for researchers and professionals alike.

Topics Covered:

- Flow-Shop Scheduling
- Information Systems Outsourcing
- Production Information Systems Usability
- ERP Systems Utilization in Enterprises
- ITIL Implementations
- Enterprise Resource Planning Implementation
- Relational Interaction vs. Reciprocal Investments
- RFID Supply Chain Management Systems
- Collaborative Multisite PLM Platform
- Knowledge Warehouse Conceptual Model

ISBN: 9781616920203; © 2011; 622 pp.

Print: US \$180.00 | Perpetual: US \$255.00 | Print + Perpetual: US \$360.00

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Maria Manuela Cruz-Cunha is currently an Associate Professor in the School of Technology at the Polytechnic Institute of Cavado and Ave, Portugal. She holds a Dipl. Eng. in the field of Systems and Informatics Engineering, an M.Sci. in the field of Computer Integrated Manufacturing and a Dr.Sci in the field of Production Systems Engineering. She teaches subjects related with Information Systems, Information Technologies and Organizational Models to undergraduate and post-graduate studies. She supervises several PhD projects in the domain of Virtual Enterprises and Information Systems and Technologies. She regularly publishes in international peer-reviewed journals and participates on international scientific conferences. She serves as a member of Editorial Board and Associate Editor for several International Journals and for several Scientific Committees of International Conferences. She has authored and edited several books and her work appears in more than 100 papers published in journals, book chapters and conference proceedings. She is the co-founder and co-chair of several international conferences: CENTERIS – Conference on ENTERprise Information Systems, ViNOrg - International Conference on Virtual and Networked Organizations: Emergent Technologies and Tools and SeGAH – IEEE International Conference on Serious Games and Applications for Health.
