

Smart Leadership for Improved Institutional Performance and Disability Support:

Mbulaheni Obert Maguvhe (University of South Africa, South Africa)

Udeme Samuel Jacob, (University of South Africa, South Africa)

Description:

In today's rapidly changing world, the effectiveness of leadership determines not only the success of institutions but also the inclusivity of their systems and processes. Smart leadership goes beyond administrative efficiency. It integrates emotional intelligence, digital innovation, and inclusive policy thinking to create environments where everyone, including individuals with disabilities, can thrive. Smart leadership emphasizes decision-making that is evidence-based, people-centered, and forward-looking, fostering systems that are both productive and compassionate. Across sectors, there is growing recognition that leadership must adapt to serve diverse communities. This requires leaders who not only understand performance metrics but also champion accessibility, equity, and sustainability.

Smart Leadership for Improved Institutional Performance and Disability Support explores how visionary, data-driven, and empathetic leadership can shape institutions that are both high-performing and inclusive. Moving beyond the traditional separation of leadership and disability studies, this book demonstrates that sustainable institutional performance is impossible without inclusive governance, strategic responsiveness, and disability-sensitive decision-making. Covering topics such as disability-inclusive talent development, bridging accessibility gaps using deep learning, and real-time object detection, this book is a fundamental academic resource for graduate and doctoral students, educational leaders, university administrators, non-governmental organizations, disability advocacy groups, policymakers, and more.

ISBN: 9798337384955 **Pages:** 400 **Copyright:** 2026 **Release Date:** 05/01/2026

Hardcover: \$165 **Softcover:** \$125 **E-Book:** \$160 **Hardcover + E-Book:** \$165

Topics Covered:

- Accessibility Gaps
- Adaptive Leadership
