

# Throughput Accounting in a Hyperconnected World

Part of the Advances in Finance, Accounting, and Economics Book Series

Ionica Oncioiu (European Academy of the Regions, Belgium)

## Description:

This reference book is an IGI Global Core Reference for 2019 as it provides trending research on the ethical management of financial information. With the recent focus on the globalized economy, this publication provides trending research, contributed by leading scholars from Europe and Asia, on the configuration and use of accounting and financial information models.

**Throughput Accounting in a Hyperconnected World** provides innovative insights into controversial debates regarding the configuration and use of accounting and finance information both internally within economic entities and through third parties. These debates underline the major responsibility of users when configuring accounting and finance models and thereby in modelling business information. The content within this publication covers risk analysis, social accounting, and entrepreneurial models and is designed for managers, accountants, risk managers, academics, researchers, practitioners, and students.
