

International Journal of Information Retrieval Research (IJIRR)

ISSN: 2155-6377; EISSN: 2155-6385
Established 2011; Published Quarterly

Editor(s)-in-Chief: Zhongyu (Joan) Lu (University of Huddersfield, UK)

The International Journal of Information Retrieval Research (IJIRR) publishes original, innovative, and creative research in the retrieval of information. This journal focuses on theories and methods with an enterprise-wide perspective and addresses interdisciplinary and multidisciplinary applications in data, text, and document retrieval. Targeting information engineers, scientists, and related professionals, IJIRR integrates interdisciplinary and multidisciplinary needs for a complete approach to the significant issue of data retrieval in the era of information fusion.

Individual Price:

Print: US \$295
E-Journal: US \$295
Print + E-Journal: US \$360

Institution Price:

Print: US \$840
Online Access: US \$840
Print + Online Access: US \$1,015
Prices are subject to change without notification.

Indexed in:

WEB OF SCIENCE™
ESCI

Topics Covered:

- Advanced software development related information retrieval issues
- Classification
- Clustering approaches
- Content and context awareness and environment awareness
- Filtering system
- Index techniques
- Information mining
- Information retrieval in cloud computing issues
- Information retrieval in education
- Information retrieval in healthcare
- Information retrieval in science, engineering, and technologies
- Information retrieval in social science, social behaviors
- Information retrieval with business, commerce, etc.
- Information retrieval with Internet of Things
- Knowledge mining
- Link analysis
- Machine learning on documents
- Message passing
- Metadata and XML retrieval
- Mobile computing related information retrieval issues
- Multimedia Retrieval
- Performance Measures
- Query languages and optimization
- Retrieval architecture
- Retrieval evaluation
- Retrieval languages and operations
- Retrieval strategies
- Retrieval systems
- Retrieval theories
- Retrieval with big data technologies
- Scalability
- Search algorithms
- Search engine
- Social media related information retrieval issues
- Taxonomy theory and applications
- Text Mining
- Text, document, and image retrieval
- Web Mining

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Zhongyu (Joan) Lu, IJIRR@igi-global.com
