Handbook of Research on Recent Developments in Intelligent Communication Application
Part of the Advances in Wireless Technologies and Telecommunication Book Series

Siddhartha Bhattacharyya (RCC Institute of Information Technology, India), Nibaran Das (Jadavpur University, India), Debotosh Bhattacharjee (Jadavpur University, India) and Anirban Mukherjee (RCC Institute of Information Technology, India)

Description:

The communication field is evolving rapidly in order to keep up with society's demands. As such, it becomes imperative to research and report recent advancements in computational intelligence as it applies to communication networks.

The **Handbook of Research on Recent Developments in Intelligent Communication Application** is a pivotal reference source for the latest developments on emerging data communication applications. Features extensive coverage across a range of relevant perspectives and topics, such as satellite communication, cognitive radio networks, and wireless sensor networks.

Readers:

This book is ideally designed for engineers, professionals, practitioners, upper-level students, and academics seeking current information on emerging communication networking trends.

ISBN: 9781522517856   **Release Date:** February, 2017   **Copyright:** 2017   **Pages:** 600

Topics Covered:

- Cluster Based Web Servers
- Cognitive Radio Networks
- Communication Networks
- Data Communication Applications
- Flying Ad-hoc Networks
- Industrial Wireless Sensor Network
- Micro-Electromechanical Systems
- Satellite Communication
