

# Governance as a Catalyst for Public Sector Sustainability

Part of the Advances in Public Policy and Administration Book Series

Neeta Baporikar (Namibia University of Science and Technology, Namibia and University of Pune, India)

## Description:

Proper implementation and the practice of governance in the public sector improve organizational performance through increased efficiency, productivity, quality, and innovation. Ultimately, governance helps organizations make better decisions, streamline processes, and reduce re-work, whilst also increasing integrity by bringing transparency and greater collaboration among stakeholders.

**Governance as a Catalyst for Public Sector Sustainability** examines the concepts that have powerfully influenced development policy and investigates the role of governance in these institutions and how they have affected current development discourse. Covering topics such as public health sector sustainability, institutional participatory governance, and human resource information systems, this premier reference source is an excellent resource for government officials, policymakers, students and educators of higher education, librarians, researchers, and academicians.
