

Advancing Cloud Database Systems and Capacity Planning with Dynamic Applications

Part of the Advances in Data Mining and Database Management Book Series

Narendra Kumar Kamila (CV Raman College of Engineering, India)

Description:

Continuous improvements in data analysis and cloud computing have allowed more opportunities to develop systems with user-focused designs. This not only leads to higher success in day-to-day usage, but it increases the overall probability of technology adoption.

Advancing Cloud Database Systems and Capacity Planning with Dynamic Applications is a key resource on the latest innovations in cloud database systems and their impact on the daily lives of people in modern society. Highlights multidisciplinary studies on information storage and retrieval, big data architectures, and artificial intelligence.

Readers:

This publication is an ideal reference source for academicians, researchers, scientists, advanced level students, technology developers and IT officials.

ISBN: 9781522520139

Release Date: April, 2017

Copyright: 2017

Pages: 381

Topics Covered:

- Artificial Intelligence
- Big Data Architectures
- Cloud Capacity Planning
- Database Management
- Information Storage and Retrieval
- Information Systems Applications
- Multimedia Big Data

Hardcover + Free E-Book:

\$210.00

E-Book Only:

\$210.00

TABLE OF CONTENTS

Acknowledgment

Foreword

Preface

Chapter 1

Fundamentals of Data Mining and Data Warehousing
Sathiyamoorthi V., Department of Computer Science and Engineering, Sona College of Technology, India

Chapter 2

Energy and Carbon-Aware Management of Geo-Distributed Cloud Data Centers State-of-the-Art and Future Directions
Atefeh Khosravi and Rajkumar Buyya, Department of Computing and Information Systems, The University of Melbourne, Australia

Chapter 3

Cloud-based Platforms and Infrastructures Provisioning Physical and Virtual Networks
Marcus Tanque, Independent Researcher, United States

Chapter 4

Advances in Dynamic Virtual Machine Management for Cloud Data Centers
Rashmi Rai and G.Sahoo, Department of Computer Science and Engineering, Birla Institute of Technology, India

Chapter 5

Resource Allocation Policies in Cloud Computing Environment
Suwendu Chandan Nayak, Sasmita Parida, C V Raman College of Engineering, India
Chitaranjan Tripathy, Department of Computer Science and Engineering, VSSUT, India
Prasant Kumar Pattnaik, School of Computer Engineering, KIIT University, India

Chapter 6

Privacy Preserving Public Auditing in Cloud - Literature Review
M. Thangavel and R. Sindhuja, Thiagarajar college of Engineering, India
P Varalakshmi, Madras Institute of Technology, India
S Sridhar, M. Kumarasamy College of Engineering, India

Chapter 7

Resource Management in Sensor Cloud
Prashant Sangulagi, BKIT, India
Ashok V Sutagundar, Basaveshwar Engineering College, India

Chapter 8

Challenges and Issues in Information Retrieval System
Sathiyamoorthi V., Department of Computer Science and Engineering
Sona College of Technology, India

Chapter 9

Big Data Optimization for Customer Discounts in Cloud Computing Environment
Raghendra Kumar, LNCT College, India
Prasant Kumar Pattnaik, KIIT University, India
Ms. Priyanka Pandey, LNCT College, India

Chapter 10

Cloud Database Systems- NoSQL, NewSQL, Hybrid
Balamurugan Balusamy, Nadhiya S, and Sumalatha N., VIT University, India
Malathi Velu, RGM College of Engineering and Technology, India

Chapter 11

Security for Hybrid Mobile Development Challenges and Opportunities
Marcus Tanque, Independent Researcher, United States

Chapter 12

Denial of Service (DoS) attacks over Cloud Environment - A Literature Survey
M. Thangavel, S. Nithya and R. Sindhuja, Thiagarajar college of Engineering, India

Chapter 13

Security Aspects in Cloud Computing
Tabassum N. Mujawar, Terna Engineering College, India
Ashok V. Sutagundar, Basaveshwar Engineering College, India
Lata L. Ragha, Terna Engineering College, India

Chapter 14

A User Centered Log Based Information Retrieval System Using Web Log Mining An Efficient Information Retrieval System
Sathiyamoorthi V., Department of Computer Science and Engineering, Sona College of Technology, India

Chapter 15

Session Hijacking over Cloud Environment - A Literature Survey
M. Thangavel, K. Pandiselvi and R. Sindhuja, Thiagarajar College of Engineering, India

About the Contributors

Index

Narendra Kumar Kamila is presently working as Professor and Head, Department of Computer Science and Engineering, C V Raman College of Engineering, Bhubaneswar, Odisha, India. He received his master degree from Indian Institute of Technology, Kharagpur and subsequently obtained his Ph. D. degree from Utkal University, Bhubaneswar in the year 2000. Prof. Kamila was also post doctoral fellow to University of Arkansas, USA. He has published several research papers in the national/international journal of repute in the field of wireless sensor networking, Adhoc-networking, Image processing, meta cognition, data privacy/security. He has served as program committee members in many international conferences. He has also conducted staff development programs under the financial support of All Indian Council for Technical Education as chief-coordinator. However, he had organized "International Conference on Computer Technology (ICCT-2010)" from 3rd Dec. to 5th Dec. 2010 at C V Raman College of Engineering successfully as General/Local Organizing Chair with financial assistance from AICTE, CSIR and Biju Patnaik University of Technology. He was also Guest Editor of International Journal of Computer and Communication Technology, Vol. 2, Issues 2, 3 and 4, 2010. He has completed many projects sponsored by various sponsoring agencies. He has guided many M.Tech. and Ph.D. students under different universities. However Dr. Kamila has been appointed as DSC member of Biju Patnaik University of Technology, Dr. Kamila has been rendering his best services as editorial board member to American Journal of Intelligent System, American Journal of Advances in Networks, American journal of Networks and Communications, Reviewer of International journal of Intelligent Information System(USA), Reviewer of International journal of Automation Control and Intelligent Systems(USA), Reviewer of Elsevier Publication, Reviewer of AMSE, modelling simulation(France), editor-in-chief of International Journal of Advanced Computer Engineering and Communication Technology, former editor-in-chief of International Journal of Communication Network and Security(IJCNS) and editor-in-chief of many international conference proceedings.
