

ICT-Based Assessment, Methods, and Programs in Tertiary Education

Part of the Advances in Educational Technologies and Instructional Design Book Series

Serpil Meri Yilan (Agri Ibrahim Cecen University, Turkey) and Kasim Koruyan (King Saud University, Saudi Arabia)

Description:

The use of information and communication technologies (ICTs) in education has revolutionized learning. Shifting beyond traditional mode of education, the integration of ICTs has become an advantage for students at tertiary education when used for the right purpose to enhance learning. The use of technology brings forth a flexible and accessible mode of education and bridges the gap of learning across borders. This enables students at tertiary level to have access to other universities and academic resource materials globally, thereby expanding their knowledge. Thus, it is crucial to consider the development of technology in education as part of a comprehensive pedagogical framework and take into account new developments in ICTs.

ICT-Based Assessment, Methods, and Programs in Tertiary Education is an essential research publication that provides relevant theoretical frameworks and recent empirical research findings on integrating ICTs in tertiary education to enhance learning and allow students to take more control of their learning. Highlighting topics such as assessment, language learning, and e-learning, this book is ideal for teachers, professionals, academicians, researchers, administrators, curriculum designers, instructional designers, and students.

ISBN: 9781799830627

Pages: 300

Copyright: 2020

Release Date: April, 2020

Hardcover: \$195.00

Softcover: \$150.00

E-Book: \$195.00

Hardcover + E-Book: \$235.00

Topics Covered:

Assessment
Curriculum Design
E-learning
Educational Technology
Emerging Technologies

Language Learning
Online Course Design
Social Learning Networks
Technology-Enhanced Environments
Tertiary Education

Subject: Education

Classification: Edited Reference

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
