

# Next Generation Digital Tools and Applications for Teaching and Learning Enhancement

Part of the Advances in Educational Technologies and Instructional Design Book Series

Mary T. Grasseti (Framingham State University, USA)  
and Julie Zoino-Jeannetti (Framingham State University, USA)

## Description:

Digital tools and applications are an intricate part of many classroom communities. In the field of education, there is a need to continually monitor the digital landscape and keep up to date on the tools and applications that are available to classroom teachers and K-12 students. Understanding the ever-changing digital landscape and its impact on teaching and learning is critical to using digital tools and applications effectively and in ways that enhance students' opportunities to learn.

**Next Generation Digital Tools and Applications for Teaching and Learning Enhancement** is a critical scholarly publication that explores digital tools and applications for the PreK-12 classroom and how digital technology can enhance the preparation of teachers. Featuring a wide range of topics including education equity, social media, and teacher education, this book is essential for educators, academicians, curriculum designers, educational software developers, IT specialists, library specialists, researchers, and practitioners.
