

Promoting Interdisciplinarity in Knowledge Generation and Problem Solving

Part of the Advances in Knowledge Acquisition, Transfer, and Management Book Series

Mohammed Nasser Al-Suqri (Sultan Qaboos University, Oman),
Abdullah Khamis Al-Kindi (Sultan Qaboos University, Oman), Salim
Said AlKindi (Sultan Qaboos University, Oman) and Naifa Eid Saleem
(Sultan Qaboos University, Oman)

Description:

Interdisciplinary research is a method that has become efficient in accelerating scientific discovery. The integration of such processes in problem solving and knowledge generation is a vital part of learning and instruction.

Promoting Interdisciplinarity in Knowledge Generation and Problem Solving is a pivotal reference source for the latest scholarly research on interdisciplinary projects from around the world, highlighting the broad range of circumstances in which this approach can be effectively used to solve problems and generate new knowledge. Featuring coverage on a number of topics and perspectives such as industrial design, ethnographic methods, and methodological pluralism, this publication is ideally designed for academicians, researchers, and students seeking current research on the promotion of interdisciplinarity for knowledge production.

ISBN: 9781522538783

Release Date: October, 2017
