

Handbook of Research on Pedagogical Models for Next-Generation Teaching and Learning

Part of the Advances in Educational Technologies and Instructional Design Book Series

Jared Keengwe (University of North Dakota, USA)

Description:

Every generation of students comes to the classroom with different needs than that of their predecessors. Implementing new methods and styles of teaching to meet these diverse needs will provide students with the best chance of success in their educational careers.

The **Handbook of Research on Pedagogical Models for Next-Generation Teaching and Learning** is a critical scholarly source that examines the most effective and efficient techniques for implementing new educational strategies in a classroom setting. Featuring pertinent topics including mixed reality simulations, interactive lectures, reflexive teaching models, and project-based learning, this is an ideal publication for educators, academicians, students, and researchers that are interested in discovering more about the recent advances in educational fields.
