## Modern Trends Surrounding Information Technology Standards and Standardization within Organizations

Premier Reference Source

### Modern Trends Surrounding Information Technology Standards and Standardization within Organizations

Kai Jakobs

Part of the Advances in IT Standards and Standardization Research Book Series

Kai Jakobs  
(RWTH Aachen University, Germany)

In fields as diverse as research and development, governance, and international trade, success depends on effective communication. However, limited research exists on how professionals can express themselves consistently across disciplines.

**Modern Trends Surrounding Information Technology Standards and Standardization within Organizations** showcases the far-ranging economic and societal ramifications incited by technical standardization between individuals, organizations, disciplines, and nations. This publication serves as a valuable model for interdisciplinary scholars, IT researchers, and professionals interested in the link between technology and social change in an increasingly networked and interconnected global society.

#### Topics Covered:

- Data Interchange
- Implementing Standards
- Information Infrastructure
- International Relations
- Market Standards
- Organizational Harmonization
- Responsible Innovation
- Standards Development

ISBN: 9781466663329; © 2015; 300 pp.

Print: US \$225.00 | Perpetual: US \$340.00 | Print + Perpetual: US \$450.00

**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

**Kai Jakobs** joined RWTH Aachen University's Computer Science Department in 1985. His current research interests focus on various aspects of ICT standards and the underlying standardization process. Over time, he (co)- authored/edited a text book on communication networks and, more recently, seventeen books on ICT standardization. More than 200 of his papers have been published in conference proceedings, books, and journals. He has been on the program committee and editorial board of numerous international conferences and journals, respectively, and has served as an external expert on evaluation panels of various European R&D programs, on both technical and socio-economic issues. He is also Vice President of the European Academy for Standardisation (EURAS). Kai holds a PhD in Computer Science from the University of Edinburgh and is a Certified Standards Professional.
