

# Globalized Curriculum Methods for Modern Mathematics Education

Part of the Advances in Educational Technologies and Instructional Design Book Series

Adedeji Tella (University of Ibadan, Nigeria)

## Description:

The field of education is in constant flux as new theories and practices emerge to engage students and improve the learning experience. Globalization has created new challenges for mathematics educators as they are compelled to respond to the shifting patterns and practices of everyday life and stay abreast of the latest research in education, curriculum, development, and technologies.

**Globalized Curriculum Methods for Modern Mathematics Education** is a comprehensive and timely publication that contains the latest research in mathematics education and modern globalized curriculum development and technologies. The book examines subjects such as teaching competencies, digital games for teaching and learning mathematics, and the challenges and prospects of globalized science curriculum. This is an ideal resource for educators, academicians, teachers, policy makers, researchers, and graduate-level students seeking to further their research in mathematics education.
