

Comparative Research on Earnings Management, Corporate Governance, and Economic Value

Part of the Advances in Finance, Accounting, and Economics Book Series

Elisabete S. Vieira (University of Aveiro, Portugal), Mara Madaleno (University of Aveiro, Portugal) and Graça Azevedo (University of Aveiro, Portugal)

Description:

New trends are emerging regarding earnings management and corporate governance showing similarities and striking differences in the practices of different countries and economies. These new trends currently shape the field of modern corporate governance with crucial issues being looked at in governance law and practices, accounting systems, earnings quality and management, stakeholder involvement, and more. In order to advance these new avenues in corporate governance, research looks at accounting policies firms use in different opportunistic circumstances in order to manage earnings, the corporate governance practices in different countries, firm performance, and other dimensions of companies. The understanding of these topics is beneficial in understanding the current state of different types of firms and their practices in modern times.

Comparative Research on Earnings Management, Corporate Governance, and Economic Value is focused on the investigation of key challenges and perspectives of corporate governance and earnings management and outlines possible scenarios of its development. The chapters explore this new avenue of research and cover theoretical, empirical, and experimental studies related to different themes in the global context of earnings management and corporate governance. This book is ideal for economists, businesses, managers, accountants, practitioners, stakeholders, researchers, academicians, and students who are interested in the current issues and advancements in corporate governance and earnings management.
