

# Research Anthology on Remote Teaching and Learning and the Future of Online Education

Information Resources Management Association

## Description:

The sudden implementation of emergency health procedures at the start of the COVID-19 pandemic forced many educators and educational institutions to explore new territory in terms of policy, teaching strategy, and more.

Now that many institutions are familiar with online education, innovations have been developed and implemented. It is essential to study these best practices and innovations that have been developed in remote teaching and learning to better understand the future of online education.

The **Research Anthology on Remote Teaching and Learning and the Future of Online Education** explores the recent developments, strategies, and innovations in remote teaching and learning that have been implemented globally. Covering topics such as emergency remote teaching, psycho-social well-being, and cross-cultural communication, this major reference work is an indispensable resource for educators and administrators of both K-12 and higher education, pre-service teachers, teacher educators, librarians, government officials, IT managers, researchers, and academicians.
