

Sustainable Potato Production and the Impact of Climate Change

Part of the Practice, Progress, and Proficiency in Sustainability Book Series

Sunil Londhe (International Centre for Research in Agroforestry (ICRAF), India)

Description:

The potato is a significant food around the globe in the grand scheme of consumption. However, changes in the Earth's climate are threatening to negatively impact the growth and production of agriculture, namely potatoes, which in turn will greatly alter the dimensions of food.

Sustainable Potato Production and the Impact of Climate Change is an authoritative publication that provides the latest research on potato production in the future climate change scenario. Features exhaustive coverage on a variety of topics associated with food fundamentals such as, availability, stability, utilization, and accessibility.

Readers:

This reference work is an essential source for professionals, researchers and students seeking current research on the importance of potato cultivation.

ISBN: 9781522517153

Release Date: February, 2017

Copyright: 2017

Pages: 320

Topics Covered:

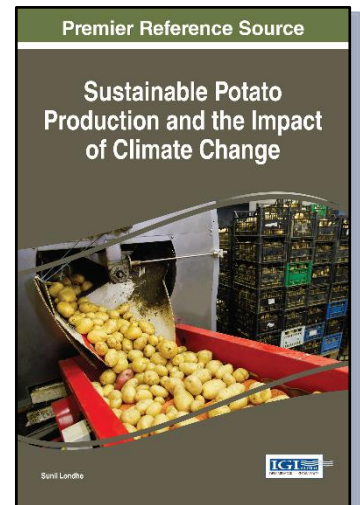

- Aerosol Treatments
- Agro Climate
- Geoinformatics
- Nutrient Application Rate
- Nutrient Deficiency
- Potato Diseases

Table of Contents

Chapter 1

Climate change and land suitability for Potato Cultivation in India

Ravindra Naitam, ICAR-National Bureau of Soil Survey and Land Use Planning, Nagpur
Preeti Deshmukt, VSI, Pune
P Moharana, NBSS&LUP
Indal Ramteke, MRSAC
R. Singh, NBSS&LUP
S. Singh, NBSS&LUP

Chapter 2

Nutrient Management for Sustainable Potato Production in India: New Initiative

R P Sharma, ICAR-National Bureau of Soil Survey and Land Use Planning, Nagpur
M K Jatav, ICAR-Central Institute for Arid Horticulture
VK Dua, ICAR-Central Potato Research Institute
Manoj Kumar, ICAR-Central Potato Research Institute

Chapter 3

Crop weather interaction in potato in South Bengal plains

S. Maji, Bidhan Chandra Krishi Viswavidyalaya
Pramiti Chakraborty, Bidhan Chandra Krishi Viswavidyalaya, Mohanpur
S. Basu, Institute of Agricultural Sciences, Siksha 'O' Anusandhan University
Sarika Jena, Odisha University of Agriculture and Technology, Bhubaneswar
Ratneswar Poddar, Bidhan Chandra Krishi Viswavidyalaya
R. Nath, Bidhan Chandra Krishi Viswavidyalaya
P. Bandopadhyay, Bidhan Chandra Krishi Viswavidyalaya
P. Chakraborty, Bidhan Chandra Krishi Viswavidyalaya

Chapter 4

Impact of Climate Change on Potato Production in India

V Dua, ICAR-Central Potato Research Institute
PM Govindakrishnan, ICAR-Central Potato Research Institute
M K Jatav, ICAR-Central Institute for Arid Horticulture, Bikaner
R P Sharma, ICAR-National Bureau of Soil Survey and Land Use Planning, Nagpur

Chapter 5

Improved agronomic practices and input use efficiency for potato production under changing climate: Improved practices for potato production.

Dhiman Mukherjee, 8902006350

Chapter 6

Towards the development of salt-tolerant potato

John Omondi, Ben Gurion University of the Negev

Chapter 7

Scenario of Quality Potato Production In Rajasthan

LOKESH JAIN, COLLEGE OF AGRICULTURE

Chapter 8

Phytotoxicity of oxidised and reduced Nitrogen aerosols on Potato crop

Bhagawan Bharali, Assam Agricultural University
Zafar Ullah, Assam Agricultural University
Bhupendra Haloi, Assam Agricultural University
Jayashree Chutia, Assam Agricultural University
Sonbeer Chack, Assam Agricultural University

Chapter 9

Issues of Climate Change, Impact and Adaptation Strategies in Nigeria

NWAKOR NGOZI, NRCRI UMUDIKE
AMADI OKEY, NRCRI UMUDIKE
Okwusi CHINWIKE, NRCRI UMUDIKE
ADIELE CHINYERE, National Root Crops Research Institute
Umudike

Chapter 10

Impact of Global Climate Change on Potato Diseases and Strategies for Their Mitigation

Mehi Lal, CPRIC, Modipuram Meerurt, UP
Saurabh Yadav, ICAR-CPRIC
Rajendra Pant, ICAR-CPRIC
Vijay Dua, ICAR-CPRI
BP Singh, ICAR-CPRI
Surinder Kaushik, ICAR-NBPGR

Chapter 11

Diseases of Potato A Major Constraint To Potato Production

Baby Summuna, Sher-e-Kashmir University of Agricultural Sciences and Technology of Kashmir
Sachin Gupta, Sher-e-Kashmir University of Agricultural Sciences and Technology of Jammu, Jammu
Moni Gupta, Sher-e-Kashmir University of Agricultural Sciences and Technology of Jammu

Chapter 12

Agro-Geoinformatics, Potato Cultivation & Climate Change

Upasana Dutta, CDAC

Sunil Lalasaheb Londhe is associated with International Centre for Research in Agroforestry Centre (ICRAF) popularly known as World Agroforestry Centre, New Delhi, India. He earned PhD degree in Technology from Birla Institute of Technology, Ranchi and received M.Sc. in Agriculture in the subject of Agricultural Chemistry and Soil Science with specialization in Land Resources Management. He is having 16 years of professional experience in agriculture research and development. He was associated as professional scientist with Centre for Development of Advanced Computing (C-DAC), Pune, India, Jharkhand Space Applications Center (JSAC), Ranchi and National Bureau of Soil Survey and Land Use Planning, Nagpur. His current research interest includes Land Health, Pedology, Climate Change, Land Degradation, Land Resources Inventory, Land Use Planning, Wasteland Change Analysis, Geoinformatics, and Spectral Reflectance of Soils.
