

Global Challenges for the Environment and Climate Change

Part of the Advances in Environmental Engineering and Green Technologies Book Series

Sofia Idris (Independent Researcher, Pakistan)

Description:

Rampant deforestation, rising carbon emissions, and more unprecedented threats are creating chaos and turmoil for the environment. The delicate balance between nature and humanity seems to waver on the brink of collapse. Climate change exacerbates standard occurrences of natural disasters, and endangers countless species. Amid these daunting challenges, the need for comprehensive research and actionable solutions has never been greater.

Global Challenges for the Environment and Climate Change draws upon the latest research and empirical findings, and offers a roadmap for navigating the complexities of our interconnected world. Exploring topics such as climate change, sustainable consumption, and global governance equips readers with the knowledge and insights needed to effect meaningful change.

This book, designed for environmentalists, policymakers, academics, and citizens alike, is a vital resource for anyone seeking to make a difference in the global landscape. Its comprehensive approach empowers readers to tackle environmental issues head-on, fostering collaboration and cooperation on a global scale. In a world threatened by environmental degradation, this book offers a path towards a more sustainable future.

ISBN: 9798369328453

Pages: 380

Copyright: 2024

Release Date: June, 2024

Hardcover: \$295.00

E-Book: \$295.00

**Hardcover +
E-Book:** \$355.00

Topics Covered:

- Air Quality
- Climate Change
- Consumer Behavior
- Developed Economies
- Developing Economies
- Environmental Policies
- Environmental Protection
- Environmental Sustainability
- Global Governance
- Global Politics
- International Business
- Land Quality
- Regional Politics
- Sustainable Consumption
- Water Quality

Subject: Environment & Agriculture

Classification: Edited Reference

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
