

Handbook of Research on Creative Cities and Advanced Models for Knowledge-Based Urban Development

Part of the Advances in Electronic Government, Digital Divide, and Regional Development Book Series

Aly Abdel Razek Galaby (Alexandria University, Egypt) and Amal Adel Abdrabo (Alexandria University, Egypt)

Description:

Discussing global society entails discussing the predominant characteristics of knowledge-based activities in all walks of life. Its main characteristics are based on creativity, innovation, freedom, and networking.

Handbook of Research on Creative Cities and Advanced Models for Knowledge-Based Urban Development provides global models and best practices of creative cities worldwide and illustrates different theoretical blueprints for the better understanding of contemporary global society. While defining key concepts of creative cities, global society, and creative class, the book also clarifies the main differences between hubs, parks, and precincts and their contributions to knowledge-based development. Covering topics that include knowledge economy, social inclusion, and urban mobility, this comprehensive reference is ideal for sociologists, urban planners/designers, political scientists, economists, anthropologists, historians, policymakers, researchers, academicians, and students.
