Organizational Leadership for the Fourth Industrial Revolution: Emerging Research and Opportunities
Part of the Advances in Logistics, Operations, and Management Science Book Series

Peter A.C. Smith (The Leadership Alliance Inc., Canada) and John Pourdehnad (University of Pennsylvania, USA)

Description:

Digital technology has transformed business and management methodology in the modern era. As technologies continue to evolve and change, designing a platform for business architecture requires flexibility and practicality.

Organizational Leadership for the Fourth Industrial Revolution: Emerging Research and Opportunities provides the latest research on the approaches to dealing successfully with newly emerging digital technologies and the dynamic complexity leaders are facing now and in the future. While highlighting topics such as business architecture, interactive planning, and strategic capital, this book explores the implications of technologies on business and leadership as well as the development of leadership methods and applications. This book is an important resource for professionals, practitioners, upper-level students, and managers seeking current research on leadership and business advancement in the digital era.
