## Emerging Mobile and Web 2.0 Technologies for Connected E-Government

Premier Reference Source

### Emerging Mobile and Web 2.0 Technologies for Connected E-Government

Part of the Advances in Electronic Government, Digital Divide, and Regional Development Book Series

Zaigham Mahmood (University of Derby, UK & North West University Potchefstroom, South Africa)

E-Government describes the utilization of technologies to improve the lives of citizens and business organizations while facilitating the operation of the government. With the rise of new technologies, governments need to consider implementing Web 2.0 and mobile technologies as a way to offer relevant e-services to citizens so that they may fully participate in governmental affairs.

**Emerging Mobile and Web 2.0 Technologies for Connected E-Government** highlights the latest technologies and how they can be implemented by the government and effectively used by citizens. This book aims to be an inclusive reference source for researchers, practitioners, students, and managers interested in the application of recent technological innovations to develop a more effective e-government system.

#### Topics Covered:

- Citizen Participation
- Digital Technologies
- Electronic Government
- Globalization
- Social Media
- Socioeconomic Development
- Strategic Management
- Urban Development

ISBN: 978146660823; © 2014; 323 pp.

Print: US \$205.00 | Perpetual: US \$310.00 | Print + Perpetual: US \$410.00

**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Zaigham Mahmood is a published author of eight books, four of which are dedicated to Cloud Computing and the other four focus on the subject of Electronic Government including: *Developing E-Government Projects: Frameworks and Methodologies*; *E-Government Implementation and Practice in Developing Countries*; *IT in the Public Sphere: Applications in Administration, Government, Politics and Planning* and this current volume. Additionally, he is developing three new books to appear later in 2014. He has also published more than 100 articles and book chapters and organized numerous conference tracks and workshops. Professor Mahmood is the Editor-in-Chief of *Journal of E-Government Studies and Best Practices* as well as the Series Editor-in-Chief of the IGI book series on E-Government and Digital Divide. He is a Senior Technology Consultant at Debasis Education UK and Associate Lecturer (Research) at the University of Derby UK. He further holds positions as a Foreign Professor at NUST Islamabad Pakistan and Professor Extraordinaire at the North West University Potchefstroom South Africa. Professor Mahmood is also a certified cloud computing instructor and a regular speaker at international conferences devoted to Cloud Computing and E-Government. His specialized areas of research include distributed computing, project management, and e-government.

## Section 1: Service Orientation and Virtualisation Technologies for Connected Government

### Chapter 1

*Service-Oriented Architecture for Developing Web-Based Applications for Connected Government*

Muthu Ramachandran (Leeds Metropolitan University, UK)

Zaigham Mahmood (University of Derby, UK & North West University Potchefstroom, South Africa)

Pethuru Raj (IBM India, India)

### Chapter 2

*Enhancing Data Management in E-Government Using Data Categorization and Visualization Techniques*

Miloš Milutinović (Belgrade University, Serbia)

Marijana Despotović-Zrakić (Belgrade University, Serbia)

Konstantin Simić (Belgrade University, Serbia)

Mihajlo Anđelić (Belgrade University, Serbia)

### Chapter 3

*Connected Services Delivery Framework:*

Mohammed Al-Husban (Southampton Solent University, UK)

Carl Adams (University of Portsmouth, UK)

## Section 2: Web 2.0 Technologies and E-Participation for Next Generation E-Government

### Chapter 4

*Web 2.0, ICT Infrastructure, and Training Provision for E-Government Readiness in Nigeria*

Oghogho Ikponmwo (Landmark University, Nigeria)

### Chapter 5

*A Base of Knowledge, Mobile, and Web 2.0 Technologies for Connected E-Government*

Muhammad Yusuf (University of Portsmouth, UK)

Carl Adams (University of Portsmouth, UK)

### Chapter 6

*Next Generation E-Government:*

Maria Moloney (Escher Group Ltd., Ireland)

Gary Coyle (Escher Group Ltd., UK)

## Section 3: Mobile Technologies for Smarter and Sustainable Mobile Government

### Chapter 7

*Mobile and Cloud Technologies for Smarter Governance*

Pethuru Raj (IBM India, India)

### Chapter 8

*Scalability and Sustainability of M-Government Projects Implementation in Developing Countries*

Olalekan Samuel Ogunleye (Meraka Institute, South Africa)

Jean-Paul Van Belle (University of Cape Town, South Africa)

### Chapter 9

*The Case of the Mexican Mobile Government: Measurement and Examples*

Rodrigo Sandoval-Almazan (Universidad Autónoma del Estado de México, Mexico)

Yaneleth Rojas Romero (Universidad Autónoma del Estado de México, Mexico)

## Section 4: Social Computing and Data Modelling for Connected Services for Inclusive Government

### Chapter 10

*Social Computing and Cooperation Services for Connected Government and Cross-Boundary Services Delivery*

Walter Castelnovo (University of Insubria, Italy)

### Chapter 11

*Emerging and Traditional ICT as Critical Success Factors for Local Governments:*

Enrique Claver-Cortes (Universidad de Alicante, Spain)

Susana de Juana-Espinosa (Universidad de Alicante, Spain)

Jorge Valdés-Conca (Universidad de Alicante, Spain)

### Chapter 12

*Data Modelling of a Multifaceted Electronic Card-Based Secure E-Governance System*

Abhishek Roy (The University of Burdwan, India)

Sunil Karforma (The University of Burdwan, India)
