Futuristic Technology Perspectives on Entrepreneurship and Sustainable Innovation

Part of the Advances in Logistics, Operations, and Management Science Book Series

Sanjay Misra (Ostfold University, Norway), Amit Jain (Amity University, India), Manju Kaushik (Amity University, India) and Chitresh Banerjee (Amity University, India)

Description:

Entrepreneurs and information technology have formed the backbone of the global economy. The growing use of information technology in society and most

industries and businesses, as well as the economic convergence of entrepreneurship and innovation, highlights the need for cutting-edge research on entrepreneurship and innovation in the context of information technology.

Futuristic Technology Perspectives on Entrepreneurship and Sustainable Innovation provides rigorous and research-based chapters on the formation and implementation of effective strategies and business plans as well as current studies on the nature, process, and practice of entrepreneurship and innovation in the development, implementation, and application of information technology worldwide. Covering topics such as green entrepreneurship, design thinking, and skill building, this premier reference source is an essential resource for entrepreneurs, business leaders and managers, IT managers, technologists, government officials, medical professionals, financial planners, students and educators of higher education, librarians, researchers, and academicians.
