Part of the Advances in Knowledge Acquisition, Transfer, and Management Book Series

Murray E. Jennex
(San Diego State University, USA)

With the advent of electronic databases, information technologies, and the Internet, organizations now more than ever have easy access to all the knowledge they need to conduct their affairs. Identifying the useful information in all that data, however, can pose a challenge.

Knowledge Discovery, Transfer, and Management in the Information Age brings together the latest empirical research in knowledge management practices and information retrieval strategies to assist organizations in effectively and efficiently utilizing the data at their disposal. Academics, managers, researchers, and professionals within the field of knowledge management will make use of this book to increase their understanding of best practices in the manipulation of information resources.

Topics Covered:

- Information and Communication Systems
- Knowledge Sharing
- Intelligent Systems
- Web Technologies
- Knowledge Management
- Database Management
- Information Resources

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Murray E. Jennex is an associate professor at San Diego State University, Editor-in-Chief of the *International Journal of Knowledge Management*, Editor-in-Chief of IGI Global's *Advances in Knowledge Acquisition, Transfer, and Management Book Series*, Co-Editor in Chief of the *International Journal of Information Systems for Crisis Response and Management*, and President of the Foundation for Knowledge Management (LLC). Dr. Jennex specializes in knowledge management, system analysis and design, IS security, e-commerce, and organizational effectiveness. Dr. Jennex serves as the Knowledge Management Systems Track Co-Chair at the Hawaii International Conference on System Sciences. He is the author of over 100 journal articles, book chapters, and conference proceedings on knowledge management, end user computing, international information systems, organizational memory systems, ecommerce, security, and software outsourcing. He holds a BA in chemistry and physics from William Jewell College, a MBA and a MS in software engineering from National University, and a MS in telecommunications management and a PhD in information systems from the Claremont Graduate University. Dr. Jennex is also a registered professional mechanical engineer in the state of California and a Certified Information Systems Security Professional (CISSP).
