

Scripting, Media Coverage, and Implementation of E-Learning Training in LMS Platforms

Part of the Advances in Educational Technologies and Instructional Design Book Series

Mohamed Khaldi (ENS Tetouan Abdelmalek Essaadi University, Morocco)

Description:

Digital learning proves that the digital revolution has almost no limits in the world. The extension of e-learning to digital learning has completely changed training and learning habits. In universities and companies and even at home, anytime and anywhere, innovative e-learning tools, such as online videos, e-learning quizzes, interactive games, and digital learning courses, can enhance knowledge exchange.

Scripting, Media Coverage, and Implementation of E-Learning Training in LMS Platforms considers the design and development of management systems, learner profiles, learning activities, and e-learning projects and discusses the design, development, and implementation in an LMS platform of e-learning projects based on educational engineering models. Covering key topics such as teaching practices, distance learning, and artificial intelligence, this reference work is ideal for industry professionals, administrators, policymakers, researchers, academicians, scholars, instructors, and students.
