## Data Mining and Analysis in the Engineering Field

Premier Reference Source

### Data Mining and Analysis in the Engineering Field

Part of the Advances in Data Mining and Database Management Book Series

Vishal Bhatnagar (Ambedkar Institute of Advanced Communication Technologies and Research, India)

Particularly in the fields of software engineering, virtual reality, and computer science, data mining techniques play a critical role in the success of a variety of projects and endeavors. Understanding the available tools and emerging trends in this field is an important consideration for any organization.

**Data Mining and Analysis in the Engineering Field** explores current research in data mining, including the important trends and patterns and their impact in fields such as software engineering. With a focus on modern techniques as well as past experiences, this vital reference work will be of greatest use to engineers, researchers, and practitioners in scientific-, engineering-, and business-related fields.

#### Topics Covered:

- 3D Modeling
- Clustering Analysis
- Data Extraction
- Document Hierarchies
- Fractal Dimension Theory
- Software Packaging
- Time Series Analysis
- Virtual Reality Systems
- Visual Data Mining

ISBN: 9781466660861; © 2014; 335 pp.

Print: US \$225.00 | Perpetual: US \$340.00 | Print + Perpetual: US \$450.00

**Market:** This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

**Vishal Bhatnagar** received the B-Tech degree in Computer-Science and Engineering from Nagpur University in Nagpur, India in 1999 and the M-Tech in Information-Technology from Punjabi University, Patiala, India in 2005 and PhD from Shobhit University in 2010. Vishal Bhatnagar is Associate Professor in Computer-Science and Engineering department at Ambedkar Institute of Advanced Communication Technologies and Research (Govt. of Delhi), GGSIPU, Delhi, India. His research interests include Database, Advance Database, Data Warehouse and Data-Mining. He has been in teaching for more than eight years. He has guided under-graduate and post-graduate students in various research projects of databases and data mining.
