

Mobile and Blended Learning Innovations for Improved Learning Outcomes

Part of the Advances in Mobile and Distance Learning (AMDL) Book Series

David Parsons (The Mind Lab by Unitec, New Zealand).

Description:

The integration of technology into educational settings has revolutionized classroom instruction in recent years. By properly utilizing available digital resources, students' learning experiences can be significantly enhanced.

Mobile and Blended Learning Innovations for Improved Learning Outcomes is an authoritative reference source for the latest research on the use and benefits of technological tools in contemporary classrooms and showcases how these devices improve the overall learning process. Highlights the distinctions and interactions between mobile and blended education.

Readers:

This book is ideally designed for practitioners, professionals, academicians, and students interested in the effective implementation of modern technology in the classroom.

ISBN: 9781522503590

Table of Contents

Preface

Section 1

Blended Learning

Chapter 1

Evaluating Learning Experience through Educational Social Network Support in Blended Learning

Marva Mirabolghasemi, Universiti Technology Malaysia, Malaysia
Noorminshah Lahad, Universiti Technology Malaysia, Malaysia

Chapter 2

Blended Learning in Oman: Confronting the Challenges of Higher Education Virendra Gawande, College of Applied Sciences - Sur, Oman

Chapter 3

Is Flipped Classroom a Tendency or a Fad? The Point of View of Future Teachers in the Philippines

Michel Plaisent, Univ Quebec Montreal, Canada
Filomena Dayagbil, Cebu Normal University, Philippines
Angeline M. Pogoy, Cebu Normal University, Philippines
Prosper Bernard, Univ Consortium Americas, Canada

Chapter 4

Learning about Blended Learning through Postgraduate Student Experiences in Australia and Singapore: An Exploratory Study in Guidance and Counselling

Margaret Carter, James Cook University, Australia
Paul Pagliano, James Cook University, Australia
Cecily Knight, James Cook University, Australia
Donna Goldie, James Cook University, Australia

Section 2

Mobile Learning

Chapter 5

Improving Teaching Practice in Early Childhood Supported by Mobile Technology

Kathryn Mac Callum, Eastern Institute of Technology, New Zealand
Heather Bell, Massey University, New Zealand

Chapter 6

Increasing Learner Interaction in Large-Scale Lectures by Using a Mobile Learning Application

Katja Lehmann, Kassel University, Germany
Matthias Söllner, Kassel University, Germany
Jan Marco Leimeister, Kassel University, Germany

Chapter 7

A Remote Mobile Experiment in Brazilian Public Basic Education

Priscila Nicolete, Federal University of Santa Catarina, Brazil
Juarez Bento da Silva, Federal University of Santa Catarina, Brazil
Marta Adriana da Silva Cristiano, Federal University of Santa Catarina, Brazil
Simone Meister Sommer Bilessimo, Federal University of Santa Catarina, Brazil
Giovanni Ferreira de Farias, Athabasca University, Canada
Silvio Serafim da Luz Filho, Federal University of Santa Catarina, Brazil

Chapter 8

Investigating the Daily Use of Mobile Phones for Local Cultural Subjects in the Malaysian Universities Context

Shamsul Arrieya Ariffin, Sultan Idris Education University, Malaysia

Chapter 9

Create, Transform and Share. Empowering Creativity and Self-expression through Mobile Learning

Maria Ranieri, University of Florence, Italy
Isabella Bruni, Italian Association of Media Education (MED), Italy

Section 3

Mobile and Blended Learning

Chapter 10

Journalism and Law 2.0: Collaborative Curriculum Redesign

Thomas Cochrane, Auckland University of Technology, New Zealand
Helen Sissons, Auckland University of Technology, New Zealand
Danielle Mulrennan, Auckland University of Technology, New Zealand
Vernon Rive, Auckland University of Technology, New Zealand

Chapter 11

Upgrading a Numerical Methods Course into New Mobile Technologies for Mathematical Education: An Approach Based on Flexibility and Skill Development

Francisco Delgado-Cepeda, Tecnologico de Monterrey, Mexico

Chapter 12

Mobile Application Development by Students to Support Student Learning

Sonal Dekhane, Georgia Gwinnett College, USA
Mai Yin Tsoi, Georgia Gwinnett College, USA
Cynthia Johnson, Georgia Gwinnett College, USA

Section 4

Literature Reviews

Chapter 13

A Trend Analysis of Mobile Learning

Onur Ceran, Gazi University, Turkey
Serçin Karataş, Gazi University, Turkey
Ülkü Ülker, Gazi University, Turkey
Nimet Ünsal Köse, Gazi University, Turkey
Mustafa Kılıç, Gazi University, Turkey
Ezgi Tosik Gün, Gazi University, Turkey
Zeynel Tok, Gazi University, Turkey
Gökçe Akçayır, Gazi University, Turkey

Chapter 14

Mobile Learning in Science and Mathematics Teaching: A Systematic Review

Rosiney Almeida, Universidade Cruzeiro do Sul, Brazil
Carlos Araújo Jr., Universidade Cruzeiro do Sul, Brazil

Chapter 15

Taking advantage of MOOCs in K-12 Education: A Blended Approach

Samantha Briggs, Old Dominion University, USA
Helen Crompton, Old Dominion University, USA
