

# Intergenerational Governance and Leadership in the Corporate World

Part of the Advances in Educational Marketing, Administration, and Leadership Book Series

Julia Margarete Puaschunder (Columbia University, USA)

## Description:

Intergenerational equity constraints herald a call for intergenerational equity – the fairness to provide an at least as favorable standard of living as enjoyed today. While grounded in evolution, intergenerational fairness has not been attributed as a natural behavioral law – a human-imbued drive bound by human fallibility. A rounded ethical decision-making anomalies frame to test the applicability of the bounded ethicality paradigm in intergenerational concerns is missing. Behavioral socio-economics shows potential to improve human intergenerational conscientiousness on financial social responsibility and environmental ethicality is underexplored.

**Intergenerational Governance and Leadership in the Corporate World** is an essential reference source that promotes the idea of intergenerational equity in the corporate world as an alternative means to coordinating the common good and imbuing economic stability beyond a purely governmental approach. Featuring research on topics such as financial development, organizational culture, and behavioral economics, this research is ideally intended for executives, policy planners, managers, researchers, and students.
