

International Journal of Distance Education Technologies (IJDET)

ISSN: 1539-3100; EISSN: 1539-3119
Established 2003; Published Quarterly

Editor(s)-in-Chief: Maiga Chang (Athabasca University, Canada)

The International Journal of Distance Education Technologies (IJDET) is a forum for researchers and practitioners to disseminate practical solutions that support learners, teachers, and administrators in open and distance learning environments. Targeted to academic researchers and engineers who work with distance learning programs and software systems, as well as general users of distance education technologies and methods, IJDET discusses computational methods, algorithms, implemented prototype systems, and applications of open and distance learning. Headed by a well-published IGI Global Editor in Chief, IJDET prominently publishes research from contributors on six continents, bringing a uniquely global perspective to this broad topic. IJDET is featured in numerous prestigious indices including Web of Science® – Emerging Sources Citation Index®, Scopus®, Compendex®, PsycInfo®, and INSPEC®, among others. All manuscripts submitted to the journal are double-blind peer reviewed, providing the most current and rigorously tested research in this subject.

Individual Price:

Print: US \$280
E-Journal: US \$280
Print + E-Journal: US \$340

Institution Price:

Print: US \$800
Online Access: US \$800
Print + Online Access: US \$965

Prices are subject to change without notification.

Indexed in:

Topics Covered:

- Academic Analytics
- Adaptivity and Personalized Learning
- Artificial Intelligence in Education
- Automatic FAQ Reply Methods
- Big Data in Education
- Blended Learning
- Collaborative and Social Learning in Virtual Worlds
- Computer Supported Collaboration Learning
- Computerized Question and Answering
- Design, Model and Framework of E-Learning Systems
- Designing Devices, Interfaces, and Content for Educational Purposes
- Distance Learning
- Educational Data Mining
- Educational Games
- Evaluation Technologies
- Flipped Classroom
- Formative and Summative Assessment
- From Hierarchical to Lateral Knowledge Flows, Teaching-Learning Relationships
- Instructional Design
- Intelligent and Adaptive Learning
- Intelligent Tutoring Systems
- Interaction and Behavior Patterns Extraction, Identification and Recognition
- Internet of Things
- Learning Analytics
- Learning Management Systems
- Learning Resource Deployment, Organization and Management
- Metacognition in new Learning Processes and new Technological Environments
- Mobile Learning
- MOOC
- Multi-Agent Educational Systems
- New Learning and Teaching Activities
- New Learning Supported by new Technologies: Challenges and Successes
- Pedagogical Issues
- Peer to Peer Learning: Learners as Teachers
- Recommendation System for E-Learning
- Serious Games
- Situated Learning
- Smart Learning Environment
- Social Learning
- Social Networking Technologies
- Supporting Learner Diversity and Personalized Learning
- Technological Approaches, Their Limitations, and How to Overcome Them
- Technology-Enhanced Learning
- Ubiquitous Learning
- Usability and Human-Computer-Interaction in Virtual Worlds
- Virtual Learning Space Design and Architecture
- Virtual Worlds
- Web 2.0 tools

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Maiga Chang, IJDET@igi-global.com
