

# Innovative Trends in Flipped Teaching and Adaptive Learning

Part of the Advances in Educational Technologies and Instructional Design Book Series

María Luisa Sein-Echaluce (University of Zaragoza, Spain), Ángel Fidalgo-Blanco (Technical University of Madrid, Spain) and Francisco José García-Peñalvo (University of Salamanca, Spain)

## Description:

Understanding new educational innovations is essential for the improvement of the training and learning process. In order to effectively implement these new tools in the classroom, teachers and trainers need access to real-life cases in which these methods were successfully used.

**Innovative Trends in Flipped Teaching and Adaptive Learning** is a critical scholarly resource that examines current advances in educational innovation and presents cases that allow for the improvement of personalized and active learning. Featuring a wide range of topics such as higher education, teacher education, and learning strategies, this book is ideal for educators, instructional designers, academicians, researchers, and students.
