

# Research Advancements in Pharmaceutical, Nutritional, and Industrial Enzymology

Part of the Advances in Medical Technologies and Clinical Practice Book Series

Shashi Lata Bharati (North Eastern Regional Institute of Science and Technology, India) and Pankaj Kumar Chaurasia (Babasaheb Bhimrao Ambedkar Bihar University, India)

## Description:

Enzymes have interesting applications in our biological system and act as valuable biocatalysts. Their various functions allow enzymes to develop new drugs, detoxifications, and pharmaceutical chemistry.

**Research Advancements in Pharmaceutical, Nutritional, and Industrial Enzymology** provides emerging research on biosynthesis, enzymatic treatments, and bioengineering of medicinal waste. While highlighting issues such as structural implications for drug development and food applications, this publication explores information on various applications of enzymes in pharmaceutical, nutritional, and industrial aspects. This book is a valuable resource for medical professionals, pharmacists, pharmaceutical companies, researchers, academics, and upper-level students seeking current information on developing scientific ideas for new drugs and other enzymatic advancements.

**ISBN:** 9781522552376
