Mehdi Khosrow-Pour
(Information Resources Management Association, USA)

With a constant stream of developments in the IT research field, it seems only practical that there be methods and systems in place to consistently oversee this growing area.

Managing Information Resources and Technology: Emerging Applications and Theories highlights the rising trends and studies in the information technology field. Each chapter offers interesting perspectives on common problems as well as suggestions for future improvement. Professionals, researchers, scholars, and students will gain deeper insight into this area of study with this comprehensive collection.

Topics Covered:

- Human Aspects of Technology
- Intelligent Technologies
- Management Science
- Operations and Logistics
- Risk Management & Assessment

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners and is ideal for classroom use.

Mehdi Khosrow-Pour (DBA) received his Doctorate in Business Administration from the Nova Southeastern University (FL, USA). Dr. Khosrow-Pour taught undergraduate and graduate information system courses at the Pennsylvania State University – Harrisburg for 20 years where he was the chair of the Information Systems Department for 14 years.
