An Excellent Addition to Your Library!

Released: December 2013

Advances in Secure Computing, Internet Services, and Applications

Advances in Secure Computing, Internet Services, and Applications

Part of the Advances in Information Security, Privacy, and Ethics Series

B.K. Tripathy and D.P. Acharjya

IGI GLOBAL
DISSEMINATOR OF KNOWLEDGE

Part of the Advances in Information Security, Privacy, and Ethics Book Series

B.K. Tripathy (VIT University, India) and D.P. Acharjya (VIT University, India)

Technological advancements have extracted a vast amount of useful knowledge and information for applications and services. These developments have evoked intelligent solutions that have been utilized in efforts to secure this data and avoid potential complex problems.

Advances in Secure Computing, Internet Services, and Applications presents current research on the applications of computational intelligence in order to focus on the challenge humans face when securing knowledge and data. This book is a vital reference source for researchers, lecturers, professors, students, and developers, who have interest in secure computing and recent advanced in real life applications.

Topics Covered:

- Information Security
- Neural Network
- Ontology Authoring and Copyrights
- Association Rule Mining
- Data Acquisition, Integration, and Interoperability
- Management Applications
- Secure Computing

Pre-pub Discount:*
Print: US $185.00 | Perpetual: US $280.00
* Pre-pub price is good through one month after publication date.

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

B. K. Tripathy a Senior Professor in the School of Computing Sciences and Engineering, VIT University, at Vellore, India. He has published more than 190 technical papers in various international journals, conferences, and book chapters and has guided 14 scholars for their Ph.D degrees in both mathematics and computer science. He is associated with many professional bodies like IEEE, ACEEE, ACM, IRSS, AISTC, ISTP, CSI, AMS, and IMS. He is in the editorial board of several international journals like CTA, ITTA, AMMS, IJCTE, AISS, AIT, and IJPS and is a reviewer of over 40 international journals like *Mathematical Reviews, Information Sciences, Analysis of Neural Networks, Journal of Knowledge Engineering, Mathematical Communications, IEEE Transactions on Fuzzy Systems* and *Journal of Analysis*. His research interest includes fuzzy sets and systems, rough sets and knowledge engineering, data clustering, soft computing, granular computing, theory of multisets, list theory, content based learning, remote laboratories and social networks.
