

# Combining Modern Communication Methods With Heritage Education

Part of the Advances in Linguistics and Communication Studies Book Series

Lia Bassa (Budapest Metropolitan University/Foundation for Information Society, Hungary)

## Description:

Cultural heritage has tremendous importance in human development. The communication of culture is determinant for society, whereas that of heritage can be a driving force for individual development. If cultural heritage is communicated and incorporated into the educational development of children from the very beginning, it will contribute to the formation of their entire lives and sustainable social development.

**Combining Modern Communication Methods With Heritage Education** provides relevant theoretical frameworks and the latest empirical research findings in the area. It shows that heritage related to information provision is to be started at a very early age and continued by schools and later educational forms. Covering topics such as cultural heritage, world heritage education, and indigenous archives, this premier reference work is an essential resource for educators and administrators of both K-12 and higher education, pre-service teachers, teacher educators, sociologists, anthropologists, business leaders and executives, marketers, librarians, researchers, and academicians.
