

Accounting and Financial Reporting Challenges for Government, Non-Profits, and the Private Sector

Part of the Advances in Finance, Accounting, and Economics Book Series

Fábio Albuquerque (Instituto Politécnico de Lisboa, Portugal) and Paula Gomes dos Santos (Instituto Politécnico de Lisboa, Portugal)

Description:

Conversations, debates, and policies toward higher education remain in an uncritical mode of normality on issues such as inclusion, exclusion, and equity. In addition, the onset of the COVID-19 pandemic has starkly highlighted the fragility of the higher education system and has raised salient questions related to inclusivity and quality in all aspects.

Accounting and Financial Reporting Challenges for Government, Non-Profits, and the Private Sector fills a gap in the existing literature by introducing current practices and procedures in the face of the new normal as they affect the higher education sector. The book also addresses the various issues of current interest in the higher education sector relative to teaching and learning, student support, staff development, curriculum development, educational technologies, learning design models, and resource allocation. Covering key topics such as student engagement, assessment practices, and academic development, this premier reference source is ideal for administrators, researchers, scholars, academicians, practitioners, instructors, and students.

ISBN: 9781668472934

Pages: 320
