

# Handbook of Research on Policies and Practices for Sustainable Economic Growth and Regional Development

Part of the Advances in Finance, Accounting, and Economics Book Series

George M. Korres (University of Aegean, Greece), Elias Kourliouros (University of Aegean, Greece) and Maria P. Michailidis (University of Nicosia, Cyprus)

## Description:

New developments in socio-economics aid in increased productivity of manufacturing. These advances result in long-term improvement of competitiveness and innovation.

The **Handbook of Research on Policies and Practices for Sustainable Economic Growth and Regional Development** is an essential reference publication for the latest scholarly information on the role of socio-economics in sustainable development initiatives. Featuring coverage on a variety of topics and perspectives including social economy innovation, cultural management, and social networking, this publication is ideally designed for researchers, policy makers, and academicians seeking current research on different determining factors of social consequences resulting from economic crisis.
