

Examining Cloud Computing Technologies Through the Internet of Things

Part of the Advances in Wireless Technologies and Telecommunication Book Series

Pradeep Tomar (Gautam Buddha University, India) and Gurjit Kaur (Gautam Buddha University, India)

Description:

The progressive combination of cloud computing and Internet of Things (IoT) will enable new monitoring services, create powerful processing of sensory data streams, and provide a new method for intelligent perception and connection.

Examining Cloud Computing Technologies Through the Internet of Things is a pivotal reference source for scholarly research on the latest and innovative facets of cloud-based Internet of Things systems including technical evaluations and comparisons of existing concepts. Featuring coverage on a broad range of topics such as fog computing, network programming, and data security, this book is geared towards advanced-level students, researchers, and professionals interested in exploring and implementing the IoT and related technologies.

ISBN: 9781522534457

Release Date: November, 2017

Copyright: 2018

Pages: 308

Topics Covered:

- Data Security
- Fog Computing
- Network Programming
- Smart Grids
- Smart Society
- Sustainability
- Virtualization

Hardcover: \$215.00

E-Book: \$215.00

Hardcover + E-Book: \$260.00
