

# Handbook of Research on Resiliency and Urban Development

Part of the Advances in Civil and Industrial Engineering Book Series

Â Ungku Norani Sonet (Taylor's University, Malaysia) and M Tamilsalvi Mari (Taylor's University, Malaysia)

## Description:

Cities worldwide are at a crossroads, facing the pressing need to adapt to a rapidly changing environment. The impacts of climate change, economic shifts, and population growth are undeniable, demanding a paradigm shift in urban development. The conventional approaches fall short in creating spaces that endure and flourish in the face of adversity. The challenge is to reimagine cities as more than concrete jungles, integrating green spaces, flexibility, and community well-being into their DNA.

The **Handbook of Research on Resiliency and Urban Development** charts the course for a resilient urban future. In its pages, government leaders, architects, urban planners, and citizens unite to forge a comprehensive guide for developing urban 'sanctuaries.' This book seamlessly weaves together disciplines like architecture, urban design, planning, sustainability, and community development, offering not just theoretical groundwork but practical strategies illustrated with vibrant case studies. It empowers individuals with the knowledge to build cities that not only withstand the challenges of our time but actively thrive amidst them.

The **Handbook of Research on Resiliency and Urban Development** stands as an invaluable resource for academics, architects, urban planners, quantity surveyors, and all stakeholders invested in the future of our cities. By dissecting the complexities of architecture and urban planning, laying the foundation for a profound understanding of sustainable urban development. Backed by compelling case studies, it guides the transformation of cities into robust, sustainable sanctuaries and emphasizes the pivotal role of community involvement in fostering inclusive, resilient, and sustainable communities.

**ISBN:** 9798369316504

**Pages:** 400

**Copyright:** 2024

**Release Date:** June, 2024

**Hardcover:** \$385.00

**E-Book:** \$465.00

**Hardcover +  
E-Book:** \$465.00

## Topics Covered:

- Asset and Facilities Management
- BIM & Digital Modelling
- Climate Action
- Conservation
- Construction and Project Management
- Disaster Resilience
- Education and Leadership
- Green Building
- Livable Cities
- Sustainable Architecture
- Sustainable Construction
- Sustainable Urban Design
- Tropical Urban Design
- Urban Heritage
- Urban Housing

**Subject:** Science & Engineering

**Classification:** H of R

**Readership Level:** Advanced-Academic Level  
(Research Recommended)

**Research Suitable for:** Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
