

Perspectives on Ecological Degradation and Technological Progress

Part of the Advances in Environmental Engineering and Green Technologies Book Series

Veli Yilanci (Canakkale Onsekiz Mart University, Turkey)

Description:

In economics, researchers have stated that there is a limit to growth because natural resources are finite. However, with technological developments and the discovery of new natural resource reserves, the limits on growth and development have begun to disappear. New technologies promoting energy efficiency provide growth opportunity in new directions, and the development of technologies have a positive effect on the environment.

Perspectives on Ecological Degradation and Technological Progress explores the economic and social impacts of technological progress on environmental degradation from a multidisciplinary perspective. Other factors that may affect environmental degradation are analyzed, and indicators that may be important for the environment are determined. Covering topics such as economic growth, ecological degradation, and environmental violations, this premier reference source is an excellent resource for economists, ecologists, government officials, sociologists, environmental engineers and innovators, students and educators of higher education, librarians, researchers, and academicians.

ISBN: 9781668467275

Pages: 300

Copyright: 2023

Release Date: February, 2023

Hardcover: \$225.00

Softcover: \$170.00

E-Book: \$225.00

Hardcover + E-Book: \$270.00

Topics Covered:

Ecological Degradation
Economic Growth
Energy Efficiency
Environmental Protection Services
Environmental Sustainability

Environmental Violations
Environmental-Related Technologies
Green Consumption Behavior
Mandatory Disclosures
Oil and Gas Companies

Subject: Environmental, Agricultural, and Physical Sciences

Classification: Edited Reference

Readership Level: Advanced-Academic Level (Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
