Project Management Approaches for Online Learning Design

Gulsun Eby (Anadolu University, Turkey) and T. Volkan Yuzer (Anadolu University, Turkey)

Developments in online learning and its design are areas that continue to grow in order to enhance students’ learning environments and experiences. However, in the implementation of new technologies, the importance of properly, and fairly overseeing these courses is often undervalued.

Project Management Approaches for Online Learning Design boldly focuses on this unique area of virtual learning by adopting a theoretical point of view and discussing the planning, organizing, securing, and managing of resources to bring about the successful completion of online learning goals and objectives. This reference source brings together project management based approaches with an exclusive focus on each online learning design project.

Topics Covered:

- Communication Management
- Distance Education
- Human Resource Management
- Instructional Design
- Knowledge & Information Management
- Project Management
- Virtual Learning Environments
- Web-Based Teaching & Learning
