

Cases on Collaborative Experiential Ecological Literacy for K-12 Education

Part of the Advances in Early Childhood and K-12 Education Book Series

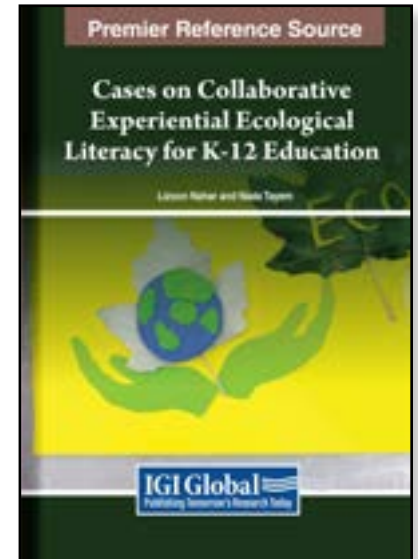

Lizoon Nahar (Indiana University of Pennsylvania, USA) and Nada Tayem (Indiana University of Pennsylvania, USA)

Description:

In the aftermath of global environmental challenges, the urgent need for comprehensive environmental education has never been more evident. As our planet grapples with the ramifications of climate change, there is a critical gap in empowering educators and students to actively engage with these issues on a global scale. The lack of effective classroom strategies, national policies, and collaborative initiatives hinders the development of the next generation to address environmental issues and contribute to sustainable solutions.

Cases on Collaborative Experiential Ecological Literacy for K-12 Education is a groundbreaking book, a beacon of hope, and a comprehensive solution to the pressing environmental education gap. It uniquely reports on experiential projects that have successfully empowered teachers and students across all academic levels worldwide. The book's compelling narratives, reflections, and empirical research serve as a roadmap, illustrating how direct experiences can profoundly influence environmental literacy. By providing insights into effective classroom strategies, national policies, and global collaborative initiatives, this book provides educators and students with the tools to not only understand environmental issues but actively contribute to solutions.

This book is intended for academic scholars, climate change experts, policy developers, and educators globally, as well as academic scholars, climate change experts, and educators. From theoretical foundations to pedagogical approaches, it serves as a vital resource for those committed to mitigating the effects of climate change and promoting sustainable development. As a call to action and a blueprint for change, the book invites readers to be part of the solution, empowering them to bridge the gap between local and global environmental concerns.
