

Balancing Agile and Disciplined Engineering and Management Approaches for IT Services and Software Products

Part of the Advances in Systems Analysis, Software Engineering, and High Performance Computing Book Series

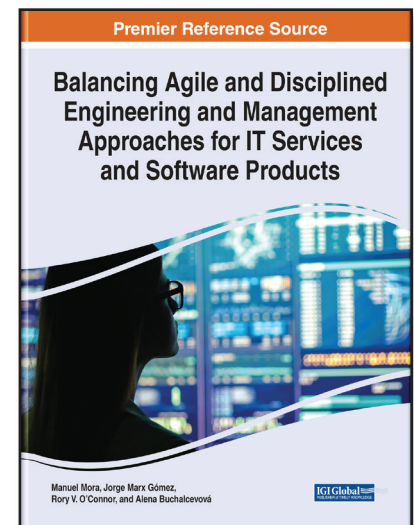

Manuel Mora (Autonomous University of Aguascalientes, Mexico), Jorge Marx Gómez (University of Oldenburg, Germany), Rory V. O'Connor (Dublin City University, Ireland), and Alena Buchalceková (University of Economics, Prague, Czech Republic)

Description:

The highly dynamic world of information technology service management stresses the benefits of the quick and correct implementation of IT services.

A disciplined approach relies on a separate set of assumptions and principles as an agile approach, both of which have complicated implementation processes as well as copious benefits. Combining these two approaches to enhance the effectiveness of each, while difficult, can yield exceptional dividends.

Balancing Agile and Disciplined Engineering and Management Approaches for IT Services and Software Products is an essential publication that focuses on clarifying theoretical foundations of balanced design methods with conceptual frameworks and empirical cases. Highlighting a broad range of topics including business trends, IT service, and software development, this book is ideally designed for software engineers, software developers, programmers, information technology professionals, researchers, academicians, and students.

ISBN: 9781799841654

Pages: 300

Copyright: 2021

Release Date: July, 2020

Hardcover: \$225.00

Softcover: \$170.00

E-Book: \$225.00

Hardcover + E-Book: \$270.00

Topics Covered:

Balanced Software
Business Trends
Conceptual Frameworks
Development Challenges
Emergent Technologies
IT Service

Open Source Tools
Processes and Standards
Software Development
Software Engineering
Theoretical Foundations

Subject: Computer Science and Information Technology

Classification: Edited Reference

Readership Level: Advanced-Academic Level (Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
