

# Global Economic Interconnectedness

Part of Advances in Finance, Accounting, and Economics

Javier Martínez-Falcó (University of Alicante, Spain & University of Stellenbosch, South Africa) Eduardo Sánchez-García (University of Alicante, Spain) Bartolomé Marco-Lajara (University of Alicante, Spain) Rosana Fuentes-Fernández (University of Leon, Spain)

International trade and finance are becoming increasingly complicated, which poses many challenges for policymakers, business professionals, and academics. Understanding the intricacies of this global economic landscape is vital to navigating modern business and policy-making complexities. However, the overwhelming amount of information makes comprehending the underlying theories and practices that drive these fields challenging.

**Global Economic Interconnectedness: International Trade and Finance** provides a comprehensive analysis of the mechanisms of international trade and finance. By unraveling the complexities of these relationships, the book helps readers understand how economic policies are formulated, how global markets are influenced, and how individuals and nations are affected. The book provides a solid foundation for engaging with these critical issues, focusing on these fields' historical evolution and current state. The book is a valuable resource for a diverse audience, including academic researchers, policymakers, business executives, and students, bridging the gap between theory and practice. It offers insights that can be applied in real-world scenarios by addressing key topics such as the impact of digital technologies, the role of international organizations, and the implications of geopolitical tensions. By equipping readers with the knowledge and understanding needed to navigate the complexities of the global economy, *Global Economic Interconnectedness: International Trade and Finance* provides a path for successful engagement with these critical issues.
