

Strategic Innovations for Dynamic Supply Chains

Part of the Advances in Logistics, Operations, and Management Science Book Series

Filiz Mizrak (Beykoz University, Turkey)

Description:

In the years following the global Covid-19 pandemic, existing issues in global supply chains became exacerbated, bringing attention to the need for advancement and innovation to solve the complex problems. We live in an era characterized by relentless technological advancements, global interconnectedness, and evolving consumer demands, and the supply chain management landscape is being forced to undergo profound transformations.

Strategic Innovations for Dynamic Supply Chains offers a comprehensive exploration of the paradigm shifts, emerging trends, and groundbreaking strategies shaping the future of supply chain dynamics. Ideal for professionals, academics, and decision-makers navigating the complexities of contemporary supply chain management, the collaborative effort behind this book combines the insights of leading experts, industry visionaries, and innovative thinkers to unravel the complexities of modern supply chain ecosystems and provide a roadmap for organizations seeking to thrive in constant change. It emphasizes the importance of sustainability and responsiveness, and provides strategic frameworks for decision-makers.

The book provides practical advice, valuable insights, and practical tips to deal with the changing and challenging situations in modern supply chains. The topics covered include technological innovations, sustainability, resilience, risk management, agile strategies, collaborative networks, globalization, data analytics, strategic planning, human capital, leadership, and emerging trends in supply chain management.
