

Nutraceutical and Functional Foods in Disease Prevention

Part of the Advances in Human Services and Public Health Book Series

Raj K. Keservani (Chhatrapati Shahu Ji Maharaj Group of Institutions, India), Anil K. Sharma (Delhi Institute of Pharmaceutical Sciences and Research, India) and Rajesh K. Kesharwani (Nims University Rajasthan, India)

Description:

Current research on health, nutrition, and preventative care will always be in demand. As the battles against ailments such as diabetes and heart disease continue, medical professionals are seeking to create a healthier society through nutrition and dietary-based tactics.

Nutraceutical and Functional Foods in Disease Prevention is a comprehensive publication providing current research on the dynamic fields of pharmaceutical and biomedical science in relation to nutrition. This book examines the interactions and associations between nutritive value and its therapeutic applications in human health. Touching on topics such as the impact of probiotics in human health and disease treatment, recent trends in functional foods for obesity management, and the clinical role of antioxidants in the treatment of diseases, this title proves a valuable resource for academicians, healthcare practitioners, medical researchers, and higher education students preparing for careers as health professionals.
