Entrepreneurship and Business Development in the Renewable Energy Sector

Part of the Practice, Progress, and Proficiency in Sustainability Book Series

Adrian Dumitru Tantau (Bucharest University of Economic Studies, Romania) and Laurenţiu Cătălin Frăţilă (Bucharest University of Economic Studies, Romania)

Description:
The need for clean sources of energy has increased dramatically as the realities of climate change have begun to effect life on earth. As a result, the demand for pioneering businesses in the sustainable energy industry will increase.

Entrepreneurship and Business Development in the Renewable Energy Sector is a critical scholarly resource that examines the growing industry of clean energy as an opportunity to create and expand enterprises, as well as discusses the need for entrepreneurial thinking in this new and growing market. Featuring coverage on a broad range of topics such as corporate entrepreneurship, business growth cycles, and photovoltaic energy, this book is geared towards academicians, researchers, and professionals seeking current research on the expanding economic market of clean energy.

Topics Covered:
- Bioenergy
- Business Growth Cycles
- Business Models
- Corporate Entrepreneurship
- European Union Energy Market
- Photovoltaic Energy
- Wind Energy
