Access to government information faces many roadblocks in developing and emerging economies due to lack of appropriate legal frameworks and other requisite information laws. However, there is hope that many countries are now recognizing the importance of providing access to public information resources.

Digital Access and E-Government: Perspectives from Developing and Emerging Countries explores the relationships that exist between access to information laws and e-government. It shares the strategies used in encouraging access to information in a variety of jurisdictions and environments, to be of use to e-government designers and practitioners, policymakers, and university professors.

Topics Covered:

- Information Literacy
- Digital Records Management in E-Government
- Information Access and Knowledge-Based Economies
- Web Archival Legislation in Africa
- Library Services in the Digital Economy
- E-Inclusion Strategies in Public Administrations
- E-Government in Africa

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.
