

Handbook of Research on Human Development in the Digital Age

Part of the Advances in Human and Social Aspects of Technology Book Series

Valerie C. Bryan (Florida Atlantic University, USA), Ann T. Musgrove (Florida Atlantic University, USA) and Jillian R. Powers (Florida Atlantic University, USA)

Description:

The rapid evolution of technology continuously changes the way people interact, work, and learn. By examining these advances, researchers can further optimize the various opportunities that technology provides.

The **Handbook of Research on Human Development in the Digital Age** is a pivotal reference source presenting the latest scholarly research on the impact of technology on the population through different theories and perspectives. Featuring extensive coverage on a broad range of topics such as cyberbullying, mobile technology, and social skills development, this publication is ideally designed for academicians, researchers, and practitioners seeking current research on new trends in technology that impact society.
