

Transdisciplinary Perspectives on Risk Management and Cyber Intelligence

Part of the Advances in Information Security and Privacy Book Series

Luisa Dall'Acqua (University of Bologna, Italy & LS TCO, Italy) and
Irene Maria Gironacci (University of Swinburne, Australia)

Description:

The emergence of artificial intelligence has created a vast amount of advancements within various professional sectors and has transformed the way organizations conduct themselves. The implementation of intelligent systems has assisted with developing traditional processes including decision making, risk management, and security. An area that requires significant attention and research is how these companies are becoming accustomed to computer intelligence and applying this technology to their everyday practices.

Transdisciplinary Perspectives on Risk Management and Cyber Intelligence is a pivotal reference source that provides vital research on the application of intelligent systems within various professional sectors as well as the exploration of theories and empirical findings. While highlighting topics such as decision making, cognitive science, and knowledge management, this publication explores the management of risk and uncertainty using training exercises, as well as the development of managerial intelligence competency. This book is ideally designed for practitioners, educators, researchers, policymakers, managers, developers, analysts, politicians, and students seeking current research on modern approaches to the analysis and performance of cyber intelligence.

ISBN: 9781799843399

Pages: 300

Copyright: 2021

Release Date: August, 2020

Hardcover: \$195.00

Softcover: \$150.00

E-Book: \$195.00

Hardcover + E-Book: \$235.00

Topics Covered:

Cognitive Science
Cyber Threats
Decision Making
Defense Strategies
Intelligent Analysis

Intelligent Technologies
Knowledge Management
Risk Management
Security Intelligence
Virtual Reality

Subject: Security and Forensics

Classification: Edited Reference

Readership Level: Advanced-Academic Level
(Research Recommended)

Research Suitable for: Advanced Undergraduate Students; Graduate Students; Researchers; Academicians; Professionals; Practitioners
