Description:

Democracy is a very important system of government found all over the world. A cardinal principle of democracy is periodic elections. Elections have various forms of propaganda at different levels, whether for unity, division, continuity, or another purpose. It is essential to research further into the developments in propaganda and political unrest so that global democracies may ensure credible elections and smooth governmental processes.

Insights and Explorations in Democracy, Political Unrest, and Propaganda in Elections investigates how democratic governments can ensure credible elections in a peaceful atmosphere and an atmosphere of political unrest amidst various propagandas. The book assesses whether democratic peace is expected in all democracies despite the free occurrence of political unrest across many democratic societies in Europe, America, Asia, and Africa.
